For Immediate Release: Brown County Benefits From Community Drive

WI, Brown County – Brown County United Way would like to recognize and thank our community by announcing the final results of the “Neighbors Matter” Community Drive. The two-week drive began on September 16 and generated excitement across our community in schools, businesses, nonprofits and churches. The 10,000 items collected ranging from laundry detergent to diapers to shampoo have been distributed to 34 sites in our community (Listed Below). Twenty-three companies did internal drives with their employees and twenty-five businesses welcomed items from the entire community. Brown County United Way would like to thank all those who participated in the Community Drive through donating items, volunteering and/or stating a need for these items in their organization. “The way the community rallied around this specific need, was truly outstanding,” Toni Loch President and CEO of Brown County United Way. Please visit www.browncountyunitedway.org for more information about the “Neighbors Matter” Community Drive.
