Final days of the Health and Hygiene Drive are here

Collections end Friday, July 14

Imagine, as a parent, making the tough choice between buying food or diapers. Or even between laundry detergent and shampoo.

Many of us take clean clothes and a good bath for granted. But not everyone has that luxury.

Personal care items are hard to afford because they can't be purchased with food stamps. This means soap, toothbrushes, deodorant and so much more are unattainable for low-income families and seniors on a fixed income.

But it doesn't need to be this way.

You can make an impact by donating to the Brown County United Way Health and Hygiene Drive.

Last year more than 22,000 items were collected, improving lives for so many of our neighbors.

Collections end Friday, so there are only a few days left to give back to your community by donating critical care items like diapers, safety razors and shampoo.

Please take a moment from your day to pick up just a few personal care products and drop them off at any location hosting a bin with the orange poster. It is a small donation that means a lot to those in need.

Thank you for caring about our community.

Together we can improve lives.

It's the United Way.
