

*A 211 caller needed support when struggling with mental health and an unhealthy relationship. Our team supported and encouraged them through referrals and follow up calls. The caller was able to transform their life and find the help needed and called 211 to express their gratitude for the support 211 was able to offer.*

*"As a family pretty new to the area we greatly appreciate the support of Brown County United Way in bringing community building efforts for our neighborhoods. It must be one of the reasons this is the best city to live in."*

*"I need medication for my depression and anxiety, but my current job doesn't offer insurance. I can't afford the medication with rent and a car payment. It is just a never-ending battle to get through life each day".*

*"I struggled in school for years. Bad grades, behind in credits and was considering dropping out. Then I got 1-1 help from an assigned Graduation Specialist who really changed the way I was working on my education. Now my grades are much better, I am caught up on my credits and set to graduate this spring".*
